

BRASS TWEEZERS

6 Styles to choose from!

Brass offers strength and good spring tension with a great balance. They are ideal for small delicate parts, polished pieces or anything that can't be scratched or marred. They are very popular in the assembly and repair industries. These tweezers are outstanding for small parts handling, Optical, Camera as well as Laboratory chemical environments.

- **Non-sparking**
- **Non-magnetic**
- **Does not react to acid**
- **Epoxy coated to prevent corrosion**
- **Non-marring on delicate metal components**
